

I've got the
JOY JOY JOY JOY
down in my heart!

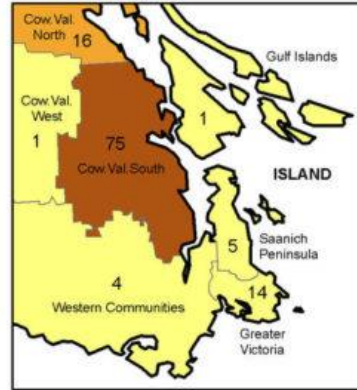

Joy Jars – 3-Act-Task
C. Dusdal

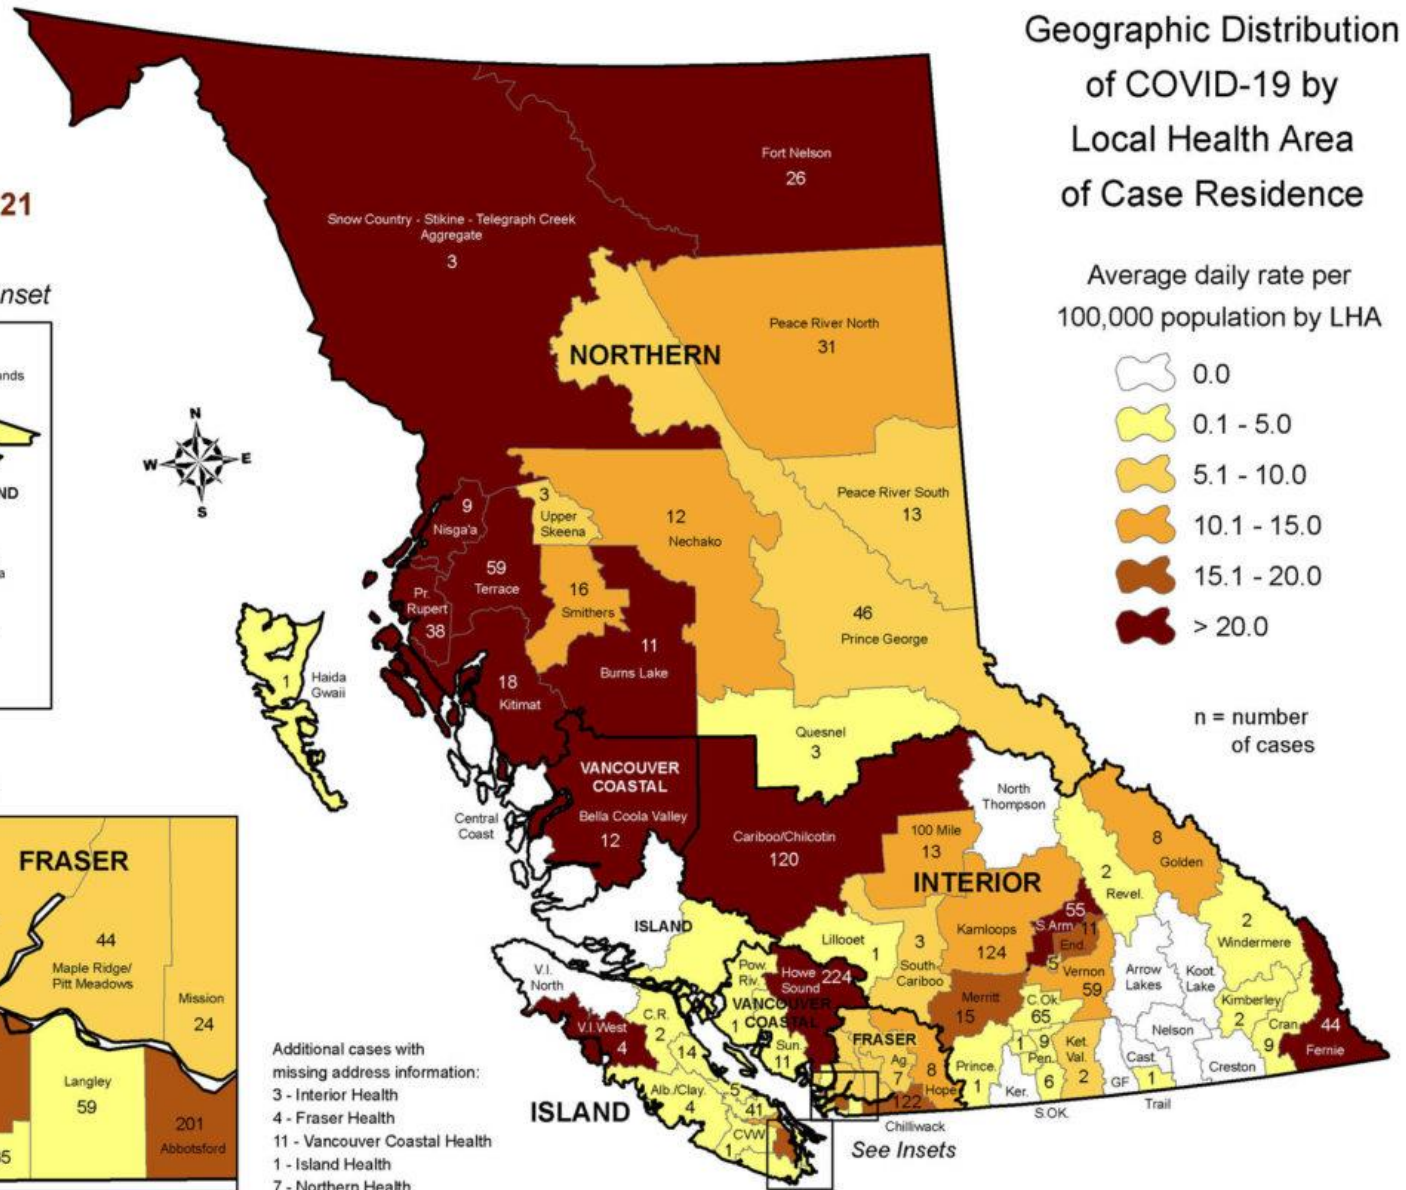

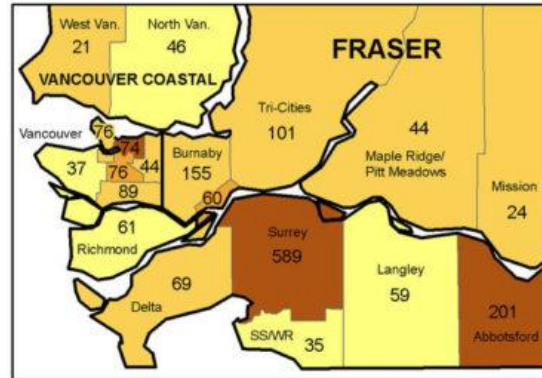

COVID-19 numbers are climbing in the north!

**Epi-Week 3 Cases
January 17 to 23, 2021**

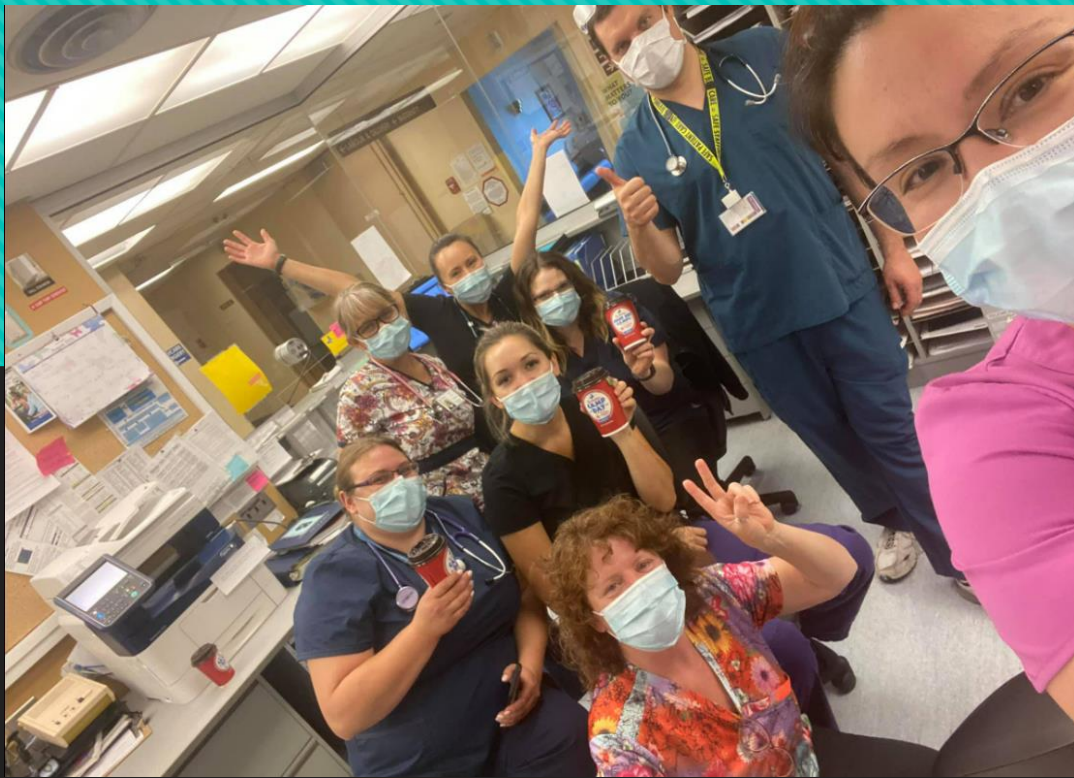

South Vancouver Island Inset

Greater Vancouver Inset

Notes: Cases are mapped by location of residence; cases with unknown residence and from out of province are not mapped. Data source: the 5 regional health authorities of British Columbia; we operate in a live database environment and case information from the health authorities are updated as it becomes available. How to interpret the maps: The map illustrates the geographic distribution of reported cases for the most recent epidemiological week (from Sunday to Saturday). Local Health Areas (LHA) with higher rates are illustrated in darker colour shading. The number of reported cases appears in each LHA. Note that the number of cases in the LHA may not represent the location of exposure (e.g. people who acquired disease while traveling or working elsewhere), and that not all COVID-19 infected individuals are tested and reported; the virus may be circulating undetected in the community, including in areas where no cases have been identified by public health. Map created January 27, 2021 by BCCDC for public release.

Natasha Alanna, 2021

Our health care workers are trying to stay positive, but they are tired and overworked.

Our elderly are alone and vulnerable.

Nurse Immunizer reviews vaccine information with Terraceview Lodge resident Chester Haizimsque. NH photo

C. Dusdal, 2021

- Our school came together to make Joy Jars to bring joy to the lives of the elderly, health care workers and other hard workers in the community.
- Students brought in the jars and treats to fill them including chocolates, Chapstick, bubbles, glow sticks, tea, and hot chocolate packages.
- Mrs. H bought the material and cut the circles to fit over the jars of the lids.

C. Dusdal, 2021

C. Dusdal, 2021

What do you notice?

What do you wonder?

Act 2

Is there anything you'd like to know?

How big were the jar lids?

How big were the circles of fabric that Mrs. H cut?

How do we find area again?

$$A = \pi r^2$$

How many jars were made?

A whopping 240 Joy Jars were made!

That's greater than the number of students that were present at school at that time!

What is the cost of that type of fabric?

Walmart, 2021

How do we convert imperial to metric?!

1 yard = 36 inches

1 inch = 2.54 cm

Act 3

Amount of Fabric Used:

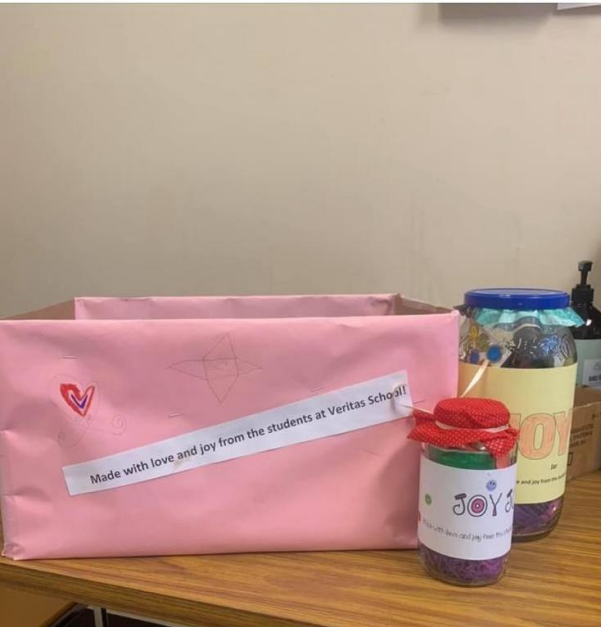

Between 4.83 m² and 6.14 m²

Cost of Fabric Used:

Between \$16.24 and \$20.68

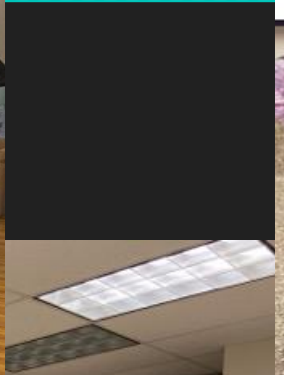

Was it worth it?

Extension

How long did it take for Mrs. H to cut all of those circles?!

How long does it take to make a template?

How long does it take to cut a circle out?

How many circles did that make?

How long did it take for Mrs. H to cut all those circles?!

1380 seconds or 23 minutes!
