## Origami Challenge!

## Presenters: Sue Park \& Axel Soos

| Grade Range | Content Area | Materials |
| :---: | :---: | :---: |
| Grade 1-5 | $\bullet$ Patterning | $\bullet$ Origami Paper / A4 paper |
|  | $\bullet$ Geometry | • Scissors <br>  |

## Activities

Activity 1. Minds-On Activity

## Instructions:

- Fold a sheet of paper, and make at least two shapes that are the same.
- Discuss what shapes were made. Who made the most shapes?

## Questions to Consider:

- What shapes do you see?
- How many shapes can you make?
- How do you know that the shapes are equally sized?

Activity 2. One-Cut Origami Challenge!

## Instructions:

| Step 1 | Step 2 | Step 3 | Step 4 |
| :--- | :--- | :--- | :--- |
| You need one piece <br> of origami paper <br> and scissors. | Fold origami paper <br> in half (hamburger <br> style) | Fold in half one <br> more time. | Open it again and <br> use a pen to mark <br> the middle |
|  |  |  |  |

| Step 5 | Step 6 | Step 7 | Step 8 | Step 9 |
| :---: | :---: | :---: | :---: | :---: |
| Fold diagonally. | Fold over a <br> large triangle. | Fold the <br> arrowhead in <br> half. | Mark the <br> cutline | Cut the line. <br> Please do not <br> open it yet! |

## Questions to Consider:

- What shapes did you find while doing the activity?
- What shape do you think you will see?

## Extending Activities

1. Try to fold the paper however you want, and cut only once. What shapes did you get?
2. You can draw any lines on the folded paper and cut them. Do you see any patterns?
